PROFILE

A passionate Front-End Developer with a strong foundation in JavaScript and React, eager to expand into full-stack development. Skilled in creating responsive and dynamic web applications with a focus on performance, usability. Currently learning backend development with Node.js to enhance expertise in full-stack solutions. Have a basic understanding of databases (SQL) and continuously improving problem-solving skills. Highly motivated, quick learner, and always seeking to build innovative and efficient web applications.

EXPERIENCE

FrontEnd Developer - freelance   present-2024

Paper Marketing website
- Developed a responsive paper marketing website using React, ensuring an optimized user experience across all devices.
- Focused on creating an intuitive UI with smooth navigation to enhance customer engagement.

Task Management App
- Built a task management application using React, allowing users to add, edit, and track tasks efficiently.

JavaScript-Based Projects (Before learning React)
- Developed a product management system using pure JavaScript, enabling users to add, edit, and remove products dynamically.
- Created multiple portfolio websites for colleagues, showcasing their skills and projects in a professional layout.

EDUCATION

Nahda University Beni Suef (NUB)   **2022-2026**

I Currently pursuing a Bachelor's degree in Computer Science at the Faculty of Computer Science. Developing strong technical expertise in software development and front-end technologies, with hands-on experience in JavaScript and React. Have a basic understanding of databases (SQL) and currently starting to learn backend development with Node.js. Passionate about problem-solving, software architecture, and building interactive web applications.
